

## LEED\_ Product Evaluation Form

**Product:** \_\_\_\_\_ **Completed By:** \_\_\_\_\_

**Company:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**1. Product Entry**

When did this product enter the market and what are the dates of improvements, updates, or revisions?  
- Since 1912 – revisions continuously reviewed.

**2. Third Party Certifications - LEED MR Credit 7**

List any third party certifications your product or company holds (i.e. Green Seal, Forest Stewardship Council, Energy Star):  
- TCA Master Grade Certificates certify performance characteristics of products produced.

**3. Warrantee & Leasing Options - LEED MR Credits 3.1-2**

Briefly describe warrantees and lease-back options:  
- Company warranties that its products meet or exceed all applicable ANSI and ASTM standards.

**4. Manufacturing Location - LEED MR Credits 5.1-.2**

Where is the product manufactured?  
- Operations located in three Ohio communities: Summitville, Minerva, and Pekin.

**5. Distribution Location - LEED MR Credit 5.1**

From where is the product distributed?  
- Summitville, Minerva, and Pekin.

**6. Regional Materials - LEED MR Credit 5.2**

From where are the product's raw materials extracted, harvested or recovered? Please list approximate percentages.  
- 100% USA

**7. Renewable Materials - LEED MR Credit 6**

What percentage, if any, does the manufacturing process use of any rapidly renewable materials or agricultural waste?  
- 86% to 98% depending upon product.

**8. Recycled & Reused Content - LEED MR Credits 3.1-2, 4.1-2**

What percentage of recycled, salvaged or reused materials is used in your manufacturing process? What percentage is post-consumer? Post-industrial?  
- Salvaged and "re-used" materials, in-plant, range from 2% to 14% depending upon product with the balance (non-toxic, non-hazardous scrap clay) consumed at a rate of 100% into a recycled mining reclamation process and/or used in approved government highway construction and/or private construction "fill".

**9. Packaging - LEED MR Credits 3.1, 3.2**

Is packaging minimized or reusable, or does it contain any recycled material?  
- Packaging is minimized to extent possible with certain products (Industrial Floor Brick and Thin Brick packaged in "open trays", conserving packaging materials by as much as 50%.

**10. Emissions - LEED EQ Prerequisite 1, EQ Credit 1, 4.1-4.4**

Does the product, its installation, or maintenance of it emit any known airborne toxins? (i.e. VOCs, CO<sub>2</sub>, SO<sub>x</sub>, NO<sub>x</sub>, CFCs, HCFCs, HFCs, etc.)  
- All within state and federal guidelines.

**11. Waste - LEED MR Credits 2.1-2**

Does installation of this product involve waste material? If so, what is the typical overage percentage?  
- No

**12. Reuse - LEED MR Credits 3.1, 3.2**

Is your product reusable and/or do installation techniques allow it to be easily removed without damage?  
- No

**13. Disposal - LEED MR Credits 2.1-2**

Does disposal of your product present any known environmental risks?  
- No
